

INSPECT PRIOR TO INSTALLATION

If your place of purchase offers a Satisfaction Guarantee, be advised that installation of the part(s) voids that offer. If the product does not meet your satisfaction and you wish to return it for a refund – not a replacement as per the warranty – contact your place of purchase for a Return Goods Authorization. Restocking fees may apply. The product must be returned packaged with all of the original materials. Product damaged in shipping due to poor packaging will not be credited. See our Warranty Statement for further details regarding warranty replacement.

Retro USA's warranty offers replacement of non-installed parts considered defective due to materials and/or workmanship. This offer is good for 15 days from date of purchase. Retro USA is not liable for damage done during installation or for replacement/refund of installed parts on the basis of satisfaction of appearance on the vehicle. See complete Warranty for normal wear and tear details.
